**CIBO**  
TECHNOLOGIES

## CIBO Impact for Grower Networks, Co-Ops, Agronomists & Trusted Advisors

The CIBO Impact platform enables companies in the food and agriculture value chain to efficiently develop, deliver and scale sustainability programs. CIBO's Grower Network Partners syndicate those programs, earning revenue and creating opportunities for their growers.

Grower network organizations, co-ops, agronomists and other trusted advisors who qualify for the CIBO Grower Network Partner program can receive a per-acre fee for sourced acres.

Deploy CIBO Impact on a white-label basis at no/low cost when you agree to syndicate sponsor programs. Give your growers a rapid understanding of program options, eligibility and potential returns. Deliver streamlined program qualification, enrollment and status tracking.

## Benefits of Becoming a CIBO Grower Network Partner

### For Grower Network Partners

Low risk and minimal investment to get started

Branded platform provides contact point with growers

Additional service and sales opportunities

PR and sustainability leadership opportunity

### For Growers

Rapid understanding of program eligibility and potential return
